

Stay in touch

The new interactive multimedia network for healthcare facilities.

OUR PRODUCT

The eON network can make a visit to your hospital feel even better. All on one screen, it provides access to TV, e-mail, Internet, video on demand, games, medical information and more. Logging on is as easy as 1, 2, 3.

1 *Touch start button.*

The eON 15" interactive touch screen gives users control over all the entertainment features and gives them the privacy of their own personal screen.

2 *Select time period.*

Patients and their guests decide how long they will use the network selecting from a wide range of time periods from 15 minutes to daily rates.

3 *Swipe your card.*

The eON system can be accessed quickly and securely using Visa, MasterCard or an eON prepaid card. It's so easy to use.

YOUR OPPORTUNITY

Sign up now and enjoy the benefits of this totally new interactive network for healthcare facilities.

1 *Take advantage of the eON solution.*

It's here and available only from eON – an advanced network system that brings together TV, e-mail and high-speed Internet for hospital patients and their guests.

2 *eON takes care of all the details.*

We will take care of implementing the system within your hospital. We can do it all because eON operates independently from the hospital IT network.

3 *Achieve true customer satisfaction.*

Increase customer satisfaction by eliminating the bore-dom of a long wait in a patient room or waiting room. Give people the tools they need to stay in touch with the outside world.

Everything
all on one screen.

TV

eon entertains your patients with dozens of local and national TV channels.

E-mail

eon keeps people in touch by allowing them to e-mail family and friends.

Internet

eon informs by providing a high-speed Internet connection.

Medical Info

eon finds the medical information your patients need to know.

Custom Features

- Video on demand
- Games
- Healthcare facility information
- Virtual mall

THE eon SOLUTION

eon is for everyone.

Patients, their family members, friends and relatives. Anyone who has to be in a hospital for a long or short period of time.

eon adds benefits throughout the hospital.

Patient rooms. With the articulated arm, patients can use the system laying down in bed or sitting in an armchair.

Waiting rooms. The console with its articulated arm can be affixed to the wall or onto our own specially designed high-tech armchair.

eon keeps people informed and in touch.

eon makes time fly by enabling people to stay in touch with the outside world through TV, e-mail and Internet. It also provides medical education programs so patients can learn more about their specific ailment or prepare for their return home.

eon is installed and maintained by us.

eon will set up the infrastructure needed to implement this high-tech entertainment and information network in your hospital. We'll take care of the entire installation and provide the hospital with a turnkey solution. The network is monitored 24 hours a day, 7 days a week through our support center and can be updated from our remote location.

It's an added advantage your hospital needs now. The **eon** network entertains, educates and increases customer satisfaction.

Discover the extra
benefits of the
eon card

The eon card provides an opportunity for hospitals, pharmaceutical companies and partners of the hospital to directly reach their target audience. You can use it for sponsorship, gifts and other promotions.

The eon prepaid card can be made available through the hospital gift shop and sold through vending machines.
